# OT Network Copper Breakout TAP P1GCCB-OT

- Suitable for extreme temperature variations (-40°C to 85°C)
- Fixed DC power withstands vibration
- Durable metal chassis lasts the life of deployment
- DIN Rail mountable in tight spaces
- 10/100/1000M (1G) network speed
- Unmanaged - easy to configure with DIP switches

Compatible with environments that are prone to vibration, cramped spaces, and heat.
